PROJECTS

Sports Turf Playground Booking (Frontend Project)

Built a user-friendly playground booking system using HTML, CSS, and JavaScript with dynamic admin and user interfaces.

Technologies: HTML, CSS, JavaScript, Nodemailer, localStorage

Created a responsive UI for viewing and booking sports grounds

Used **JavaScript** to dynamically add/remove ground listings and handle form submissions

Simulated login system using **localStorage** for storing user/admin credentials

Integrated **Nodemailer** to send booking confirmation emails to ground owners

Admins can manage ground details and images without backend support

Portfolio Website

Technologies: React.js, Tailwind CSS, React Router DOM

Designed and developed a fully responsive personal portfolio website using **React.js** and **Tailwind CSS**, highlighting key projects, skills, and contact information.

Integrated **React Router DOM** for smooth, multi-page navigation without page reloads.

Utilized **Tailwind CSS breakpoints** to ensure consistent layout and responsiveness across all screen sizes (mobile, tablet, desktop).

Deployed the application using **Netlify** for seamless and fast online access.
